

Streamlining IT Procurement: Automating Standard Laptop Orders

2. Demonstration of Proposed Features

Date: 30.09.2026

Team ID: MKU201 Laptop Orders

The demonstration presents the main features implemented for automated Standard Laptop procurement and verifies the result using actual ServiceNow records.

Feature 1 – Standard Laptop Service Request

A Standard Laptop item is available through the Service Catalog. A user can place a laptop request, which creates a Request and Requested Item record.

Feature 2 – Approval-Based Automation

The workflow is designed to act after the Service Catalog request reaches the required approval state. The Catalog Task is configured with Approval = Approved.

Feature 3 – Flow Designer Automation

The active flow named “Standard laptop tasks” uses a Service Catalog trigger and a Create Catalog Task action. The Requested Item Record is used as the input record.

Feature 4 – Automatic Catalog Task Creation

The flow creates a Catalog Task automatically instead of requiring manual task creation.

Feature 5 – Hardware Assignment

The generated Catalog Task is assigned to the Hardware assignment group. The Requested Item screen confirms the Catalog Task and Hardware assignment.

Feature 6 – Task Information

The generated task contains the short description and description “Laptop need to Configured”, and the approval is shown as Approved.

Demonstration Sequence

- Open the Standard Laptop request.
- Show the Requested Item record.
- Show the active Standard laptop tasks flow.
- Open the Catalog Task generated by the flow.
- Verify Approval = Approved.
- Verify Assignment Group = Hardware.
- Verify the Short Description and Description.

Expected Demonstration Result

The audience should see a complete chain from Service Catalog request to approval and then to an automatically created Hardware Catalog Task.

Supporting Evidence

The screenshot shows the ServiceNow interface for a Catalog Task record. The top navigation bar includes the ServiceNow logo and various tabs like All, Favorites, History, and Admin. The main header displays the task name 'Catalog Task SCTASK0010001' and a search bar. The record details are organized into two columns. The left column contains fields for 'Number' (SCTASK0010001), 'Assigned to' (empty), 'Configuration item' (empty), 'Active' (checked), 'Short description' (Laptop need to Configured), 'Description' (Laptop need to Configured), and 'Work notes' (empty). The right column contains fields for 'Approval' (Approved), 'Priority' (4 - Low), 'State' (Open), 'Request item' (RITM0010001), and 'Requested for' (System Administrator). Below these fields is a 'Post' button. At the bottom, the 'Activities' section shows a single activity by 'System Administrator' with a status of 'Impact 3 - Low' and 'Opened by System Administrator'. The bottom status bar shows the weather as '31°C Sunny' and the time as '01:25 PM 26-09-2026'.

ServiceNow Catalog Task record for SCTASK0010001. The record shows the following details:

- Number: SCTASK0010001
- Assigned to: [Empty]
- Configuration item: [Empty]
- Active: ☒
- Approval: Approved
- Priority: 4 - Low
- State: Open
- Request item: RITM0010001
- Requested for: System Administrator
- Short description: Laptop need to Configured
- Description: Laptop need to Configured
- Work notes: [Empty]
- Activities: 1 (System Administrator, Impact 3 - Low, Opened by System Administrator)

Figure 1: ServiceNow Request record showing the Standard Laptop Requested Item.

The screenshot shows the ServiceNow interface for a Requested Item record. The top navigation bar is similar to the previous screenshot. The main header displays the item name 'Requested Item RITM0010001'. The 'Activities' section shows a single activity by 'System Administrator' with a status of 'Impact 3 - Low', 'Priority 4 - Low', and 'State Open'. Below this, there are 'Update' and 'Delete' buttons. The 'Related Links' section includes a link to 'Flow Context'. The 'Catalog Tasks (1)' tab is selected, showing a table with one row. The table has columns for 'Number', 'Assignment group', 'Assigned to', 'Short description', 'Actual start', 'Actual end', and 'Order'. The row contains the following data: 'SCTASK0010001', 'Hardware', '(empty)', 'Laptop need to Configured', '2026-09-23 22:39:11', '(empty)', and '1 to 1 of 1'.

ServiceNow Requested Item record for RITM0010001. The record shows the following details:

- Activities: 1 (System Administrator, Impact 3 - Low, Priority 4 - Low, State Open)
- Update, Delete buttons
- Related Links: Flow Context
- Catalog Tasks (1):

Number	Assignment group	Assigned to	Short description	Actual start	Actual end	Order
SCTASK0010001	Hardware	(empty)	Laptop need to Configured	2026-09-23 22:39:11	(empty)	1 to 1 of 1
